Miller, alien property custodian, in response to a resolution by Senator King of Utah. The sequestered property will also have a bearing on the question of settlement of American claims against Germany," Miller said.

GHOST PLANE IS WORRYING COAST PEOPLE

(By Associated Press) SAN FRANCISCO, April 10.—Visions of a ghostly aviator hovering in a phantom plane around the hangar used by the late Lincoln Beachey, who plunged to his death at the Panama Pacific exposition in San Francisco seven years ago, have thrown residents of Bay Farm Island, near here, into a panic, according to Harry Young, tender of the bridge connecting the island with the mainland. One resident, a vegetable grower, claims to have seen the phantom aviator on two successive nights, while crossing the bridge in the dark, and feared that the plane, flying low, must collide with his wagon. As the plane came close to him it did not alter its course, according to the man, but instead it "flew right through him." Residents of the island state that, although the phantom might possibly have been their imagination, they prefer hereafter to pass Beachey's hangar in the day time. After Beachey's death, the hangar was removed from the exposition grounds and towed to the island, where it has remained untenanted ever since.

IMMIGRATION FROM INDIA IS CAUSE PROTEST

(By Associated Press) CALCUTTA, March 1.—(By Mail).—Winston Churchill's declaration at a dinner in London and in the house of commons that Indian immigration into Mount Kenya Colony, British East Africa, would not be permitted by the colonial department has caused a storm of protest in British India.

Nationalist leaders in all parts of the country are making it plain to the government that they will resist any restriction of the rights of their fellow countrymen in Africa. The Indian legislative assembly at Delhi, after a keen debate, has passed a resolution condemning the policy announced by Mr. Churchill and declaring that "any failure in His Majesty's African territories to meet the lawful claims of Indians to equality of status with all other classes of His Majesty's subjects will be regarded as a serious violation of the rights of Indians to citizenship." The assembly requested its "emphatic protest" to be sent to the British cabinet. This action of the assembly was vigorously upheld at a public meeting in Madras where Mrs. Annie Besant, theosophist leader, vehemently denounced the doctrine of superiority of the white race over the colored and advocated that meetings be held all over the country in support of the Indians in Kenya. C. F. Andrews, formerly an English missionary, now a leader of the Indian nationalists, in a speech protested against the proposed prohibition of Indian immigration into Kenya and against the segregation in residential areas.

(By Associated Press) LOS ANGELES, April 10.—A charge of murder has been prepared against Herbert Wilson, former minister and evangelist, as a result of a sensational jail breaking plot yesterday which resulted in the death of R. Cox, a fellow prisoner of Wilson, when killed by deputy sheriffs. Wilson and Cox were held pending trial on charges of mail robbery, and are suspected of other robberies involving \$25,000. NOVELTIES ARE MANY IN HOMES NEWLY BUILT

(By Associated Press) CHICAGO, April 10.—The hidden trap doors, secret chambers and underground passages of the old romances are rivalled by ingenious novelties in home furnishings which are being produced this year. A house fitted throughout with the new devices would have all the mystery and surprise of a fictitious Gothic castle, but with modernness and domesticity as the keynote. This new romanticism in dwelling house equipment was evidenced at the annual own your home exposition in the Coliseum here. For in these days twin beds swing into the clothes closet; an ironing board unfolds at the pressure of a button; a seat emerges from a panel secreted in the wall of the kitchen and the rear door may be equipped with cabinets in the lower panel for the delivery of groceries, with a set of trick locks to prevent the reopening of the door, and with automatic signs to indicate when the cabinets are full. An electric, double spindled sewing machine masquerades as an assembly of card tables or bookcases. A substitute for swing doors has been devised which slides gently from view, apparently into nowhere. Bathroom devices include a half-length tub arranged to enable one to bathe in a sitting posture. A ledge in front extends a foot deeper than the rest of the tub, forming a foot basin. There are shower attachments. Inventions intended to simplify the kitchen work include a detachable spout for the faucet, which may be used in spraying lettuce or rinsing dishes.

ALBANIAN KIDS AGAIN TAUGHT AMUSEMENTS

(By Associated Press) TIRANA, Albania, March 17.—(By Mail).—Albanian children are learning to play for the first time since the beginning of the war and are being taught American games. This has been made possible by funds contributed by America's children to the Junior Red Cross.

Until now the children of Albania have never learned to play or to laugh. Ten years of war and internal strife denied them entrance into childhood's promised land. But every day now, outside the old Parliament building in Tirana, school-boys may be seen playing prisoners' base, burn the city, duck on the rock, hop scotch and other games that have made the American children the brightest in the world. The girls indulge in all the games and frolics popular among their little sisters in America. During school hours they are taught also to sew, embroider and care for the sick.
